Newsletter Updates January-April, 2023

Greetings from the entire Tender Foot School Fraternity. First we would like to give thanks to our Almighty Father for bringing us this far. We also take this opportunity to extend our sincere appreciation to all our esteemed friends and well-wishers for your continuous love and support that you have been bestowing us all through the years and in this regard, accept our deep gratitude from the bottom of our hearts. We value your friendship and compassion greatly.

School Opening year 2023

The School opened on 24th January 00, 2023 for first term after a long holiday. Most of our children reported back and we had some new admissions. Currently we are having 307 children. We have not really recovered our numbers since the Covid-19 pandemic, but we are gradually going back. Hopefully before the year ends we shall have gone up to 400 pupils.

K.C.P.E. Exams

Our class eight candidates who sat for the exams in November, 2022. They had a mean score of 313 marks regardless they were in that class for only seven months and managed to cover the syllabus within that short period. We are optimistic that our current class eight will do much better now that they have enough time.

Grade six

Our pioneer class sat for their Kenya Primary School Education Assessment (**K.P.S.E.A.**) exams and their results came out very well. They have all been admitted to grade seven in our school and we also have new pupils from other schools. We are still open to new admissions in this class. Below are our pioneer C.B.C. Junior Secondary students with Tr. Esther. They have different uniforms from the others as per the directive from the Ministry of Education.

Rotary Club of Langata

We had some visitors from The Rotary Club of Langata come to our school on 24th February, 2023 for a further survey ahead of supplying of the computers as earlier reported. The representatives were one Mr. Ben Muraya and Jannet Gachoya. We appreciate them very much as we await the arrival of the computers. This will be such an achievement to the school since currently we have only one computer lab which serves both upper and lower wing. Shown below are some photos taken while the visitors were addressing our children.

Jannet and Ben addressing the children

We also had visitors from Bic East Africa Company come to our school on 29th March, 2023 to gift our children with some Bic products for diligently using their products. They also gifted the school with a white board. Below are photos taken during the event.

Pupils with their gifts.

Madam Peris and Tr. Evans receiving the white board

CLOSING DAY

The school closed on Tuesday 18th April, 2023 for a period of two weeks. This will be a short holiday. The school will resume on Tuesday 9th May 2023.

Our pupils enjoyed their closing day party as usual. Below are pupils during the closing day.

Tr. Esther dancing with the children on closing day

Development

The five new classrooms are on the final touches and we are very grateful. This is quite an achievement. Our target for the fifteen classrooms on the lower wing has been achieved and we would like to take this opportunity to pass our sincere gratitude to all who participated in one way or another and especially our dear Dad Bill Gray of Rotary Club of Cataraqui Kingston ,Canada who did everything possible to make our dream come true.

The dining hall is still pending completion as shown in the photos below and we are hopeful that it will also be ready in due course.

The new classrooms nearly finished

The dining hall under construction

Appeal for more developments

We as Tender Foot School Fraternity would like to take this opportunity to thank all our well-wishers who have made us reach this far. We still humbly request for your support to buy some music instruments for our C.B.C curriculum and also add some more laboratory equipment's and home science items. The new class rooms will need new furniture and also the dining hall will need chairs and tables to be used by our children. We shall sincerely appreciate your support. We wish all our valued friends God's blessings in abundance.

Thank you all.
